

Maintenance

Vinyl Wallcovering and Vinyl Upholstery

Vinyl wallcovering and vinyl upholstery are easily cleaned using clear, warm water and mild soap with a natural sponge. A soft cloth or towel should only be used to tamp dry (do not rub). Stubborn stains can be removed with a laundry spot remover or rubbing alcohol.

Adhesives and Window Treatments

Please use a dull knife when trying to gently scrape off unwanted materials from the product. Rinse area with a lightly dampened natural sponge and soapy water. A soft cloth or towel should only be used to tamp dry (do not rub).

General Recommendations for All WG Products

Tend to stains as quickly as possible. Please test the cleaning method on excess material or in the corner of the material in order to not draw attention to the area. Try several little attempts instead of one heavy application. If a solid material has formed on the surface, try to remove with a dull putty knife before applying stain remover. Be mindful of the pattern and the coloration of each product, being extra sensitive to darker colors for they may leave lighter areas after applying surface cleaning. Please do not use solvent-based cleaning agents, lacquer thinners, nail polish remover, pine oil, or cleaning agents containing bleach, which may cause discoloration over time.

Wolf-Gordon is not responsible for any damage to products that occurs during installation and after installation is complete, as well as incidental marks, general negligence or human error to the product.
